SECTION 1

The logo

The logo

1.1 The Sunburnt Signature

At the heart of our visual identity
is a vibrant signature – the Syz logo.
Inspired by the long history of great
entrepreneurial businesses using
a signature style logo as a mark
of commitment – this personal
touch underlines andguarantees
our commitment to all that we do
and offers our name as our bond.

The logo

1.3 Clear space & minimum size

To ensure optimal readibility, there should always be a minimum amount of clear space around the Syz logo.

This space isolats the logo from any competing graphic elements, such as other logos or copy that may conflict with, crowd or diminish the overall impact of our mark.

Clear space

Minimum size

For digital use:

A minimum width of 40px

For print use:

A minimum width of 8mm

The logo

1.4 Lock-ups

The logo

1.5 Signage

We have created a variant
of the logo for use in signage,
on long, horizontal boards
where the normal version
of the logo would not work.
This variant should only
be used for signage.

SECTION 2

Isotype

Isotype

2.1 For social media & web

Our isotype is our Syz logo in its pure essence. The isotype can be used as a favicon for browser tabs, as social media avatars or as a secondary graphic element wherever needed.

The isotype can be contained in a square or circular shape

The isotype can be used without a container shape

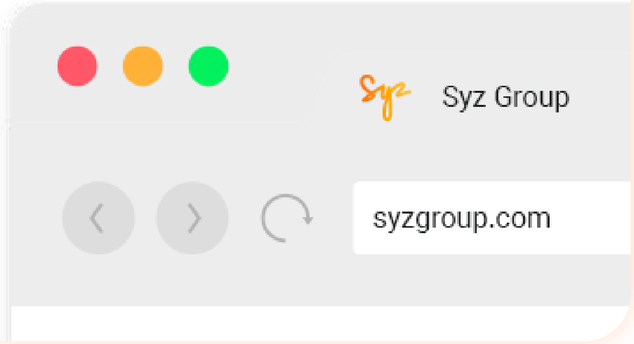

Minimum size
20x20 px | 0.5 x 0.5cm

Colour

4.3 Gradients

Orange Gradient

Blue Gradient

The colour breakdown information can be found on the main palette page №20

SECTION 5

Iconography

Iconography

5.1 Our style

Iconography is a great help towards making our messages more intuitive.

Icons should always be clear and have an understandable meaning.

Iconography

5.2 Colour ways

Primary icon colours

The preferred icons are filled in with the Syz Orange Gradient. If they are contained within a circle to work as a button, then the icon should become white-filled

Secondary icon colours

Wherever the gradient in the primary colours isn't an option (i.e. a software constraint, or to differentiate from another category), use colours from the primary Syz colour palette.

Secondary icon colours

When icons are placed over a dark or busy background, please use white-filled icons for clarity

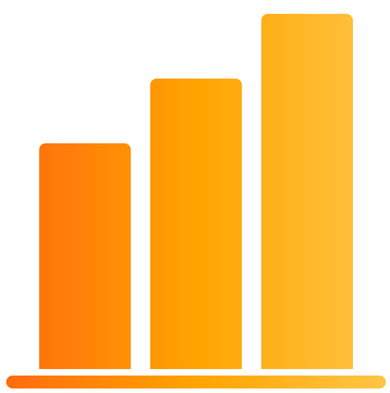

Iconography

5.3 Adding new icons

When adding new icons to our library, make sure to stay consistent by focusing on the following details:

- They should be filled - not outlined
- They should have round corners - not pointy or sharp

Iconography

5.4 Icons in PowerPoint

You can easily insert new icons into a slide using Microsoft Office's Icon function:

a. Go to the 'Insert' tab

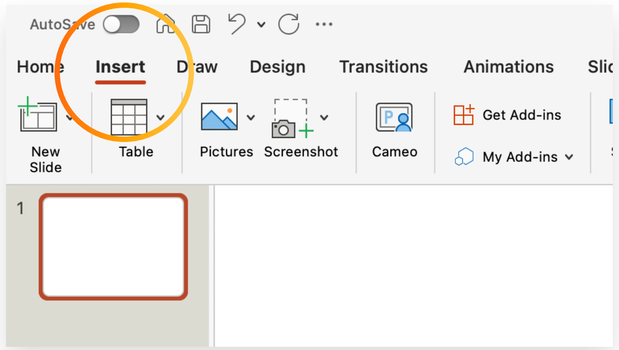

b. This will open up a new panel on the right

c. Find an icon through the search function and click 'Insert'

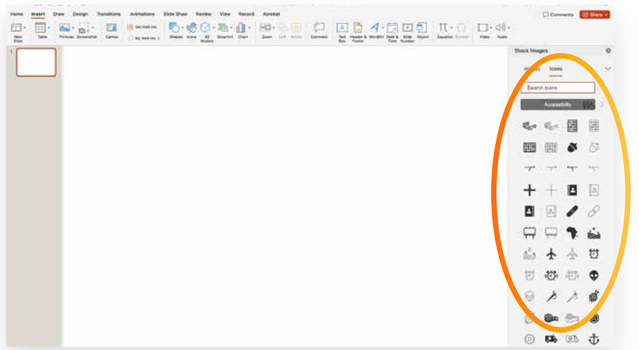

d. Once the icon is on the slide, select it and change its colour using the Syz colour palette

Note:
Unfortunately, Microsoft Office does not allow yet to use gradients as filling for icons, so when working in PPT, you'll have to use the primary Syz colour palette.

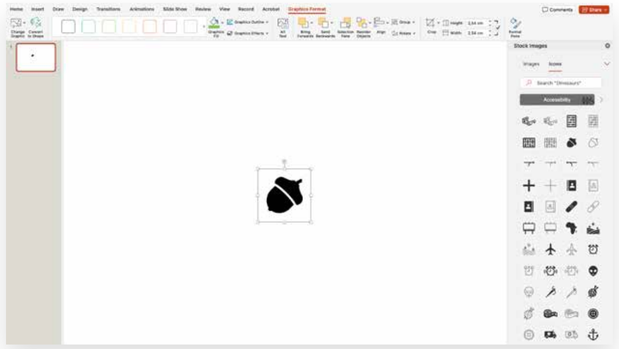

a.

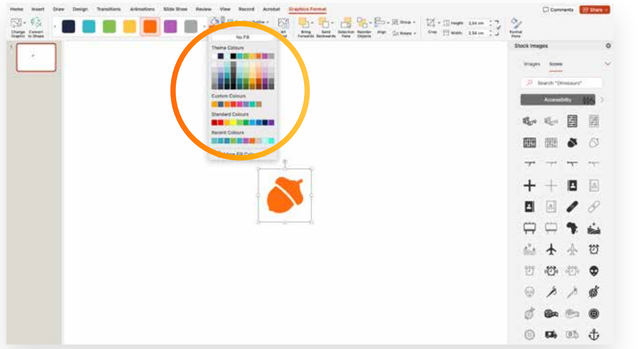

b.

7.4 Tables

Standard table

Use the standard table style when it's the only table or graph on a single page or slide

LOREM IPSUM AVENAT		
ISSUER	**CODE**	**WEIGHT**
Lorem ipsum	NL30202000	10.00%
Lorem ipsum	NL30202000	10.00%
Lorem ipsum	NL30202000	10.00%
Lorem ipsum	NL30202000	10.00%
Lorem ipsum	NL30202000	10.00%

Compact table

Opt for the compact table style on busy pages and spreads, or where the table offers supporting information

LOREM IPSUM AVENAT

ISSUER	CODE	WEIGHT
Lorem ipsum	NL30202000	10.00%
Lorem ipsum	NL30202000	10.00%
Lorem ipsum	NL30202000	10.00%
Lorem ipsum	NL30202000	10.00%
Lorem ipsum	NL30202000	10.00%
Lorem ipsum	NL30202000	10.00%

SECTION 8

Graphic elements

Graphic elements

8.1 Boxes

When in need for some structure, our box style will come to the rescue and help create order as well as depth and interest.

If you're working in a design program, such as InDesign, Photoshop or Illustrator, please follow the instructions to the right.

If you're working in a office program, such as PowerPoint or Word, where design features are reduced, please follow the following parameters to create our box style:

a. Use the 'Round rectangle' shape as a base. Choose white as a filling colour with no outline colour.

b. Under shadow presets, select the second option in 'Outer' shadows (so the shadow falls directly and centrally under the box)

c. Choose Mango Amber as the drop-shadow colour

d. Set transparency at 70%, size at 100%, blur at 50pt, angle at 90 degrees and distance at 0

A Round all corners at 35 px

B **Top drop shadow**

- Colour: Gold Yellow or Blueberry Blue
- Opacity: 20%
- Distance: 15 px
- Angle: -90 degrees
- X Offset: 0 px
- Y Offset: -15 px
- Size: 20 px

C **Bottom drop shadow**

- Colour: Tiger Orange or Space Blue
- Opacity: 20%
- Distance: 15 px
- Angle: 90 degrees
- X Offset: 0 px
- Y Offset: 15 px
- Size: 20 px

Graphic elements

8.2 Buttons

Primary buttons

To be used on light or clear backgrounds

- Bold type on small buttons
- Round all corners at 100px
- Orange gradient background
- Soft blue drop shadow (20%)

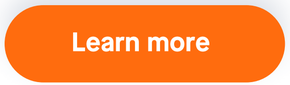

- Light type on big buttons
- Round all corners at 100px
- Orange gradient background
- Soft blue drop shadow (20%)

- Solid fill icon
- Round shape
- Orange gradient background
- Soft blue drop shadow (20%)

Secondary buttons

To be used where gradients aren't compatible, light or dark backgrounds

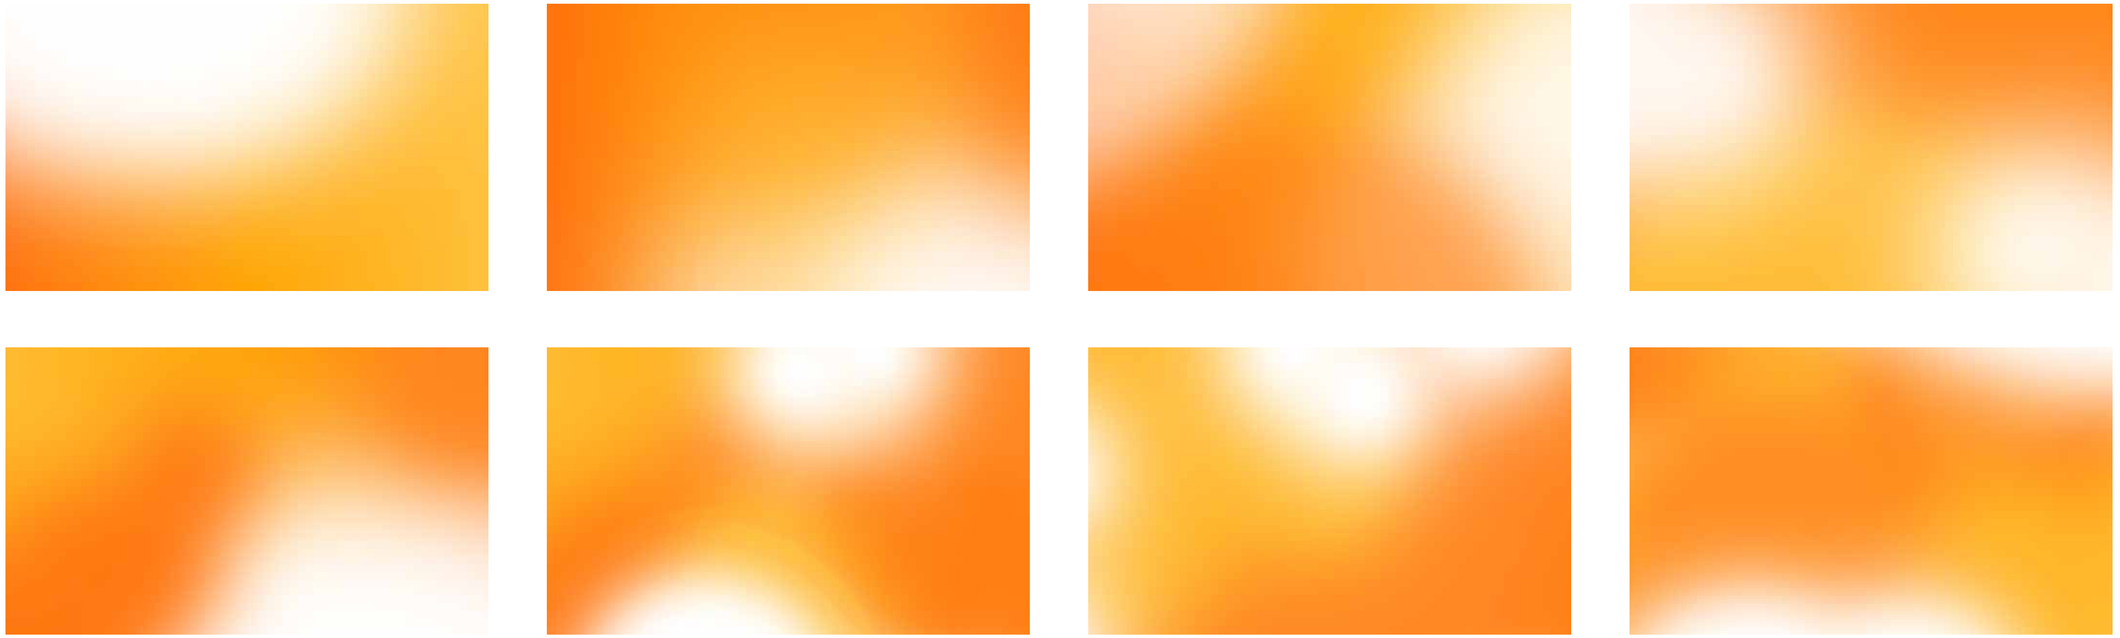

Graphic elements

8.3 Blurred backgrounds

SECTION 9

Best practice

Best practice

9.1A PowerPoint presentation

When creating new PowerPoint presentations, please use the approved Syz template.

Here and in the next pages you will find some examples of best practice in a deck design

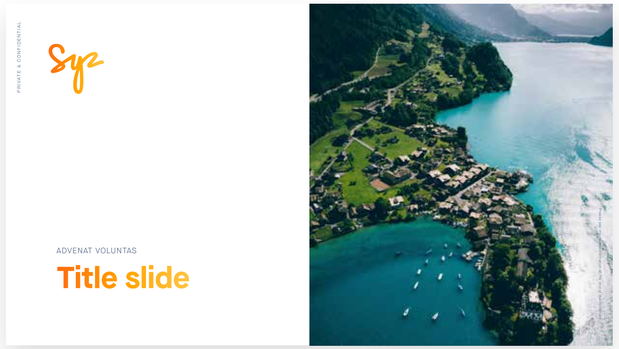

a. Use the photographic title slide for external communications

b. Use the gradient title slide for corporate communications

c. Alternate between orange and blue gradients in boxes to add a colour interest

d. Add graphic elements, like rounded corners and shapes, to elevate composition

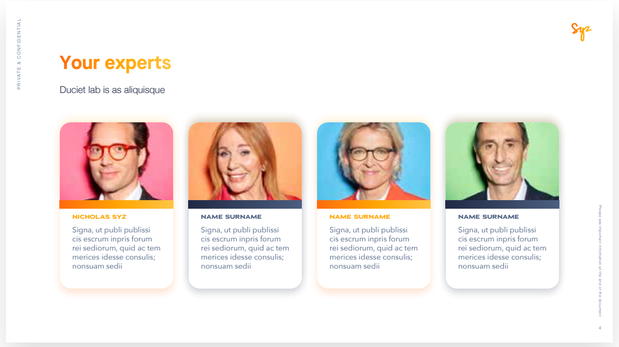

a.

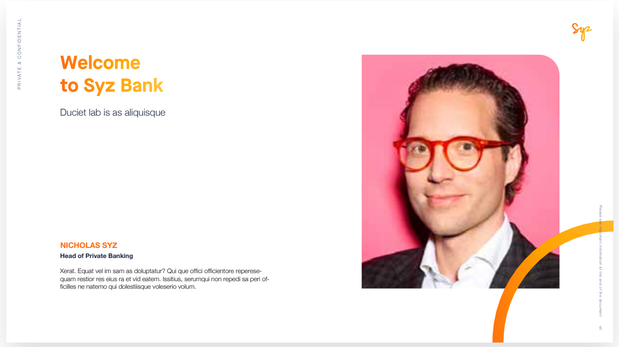

b.

c.

d.

Best practice

9.1B PowerPoint presentation

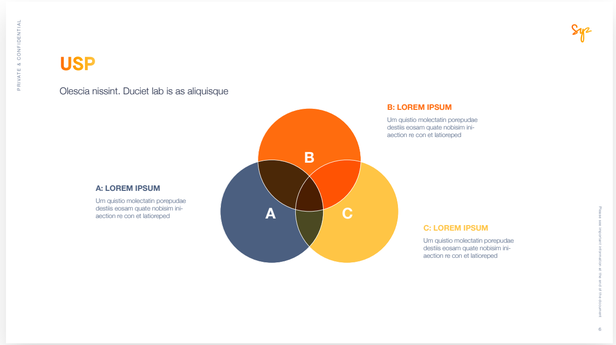

a. Be as minimalistic as possible, tell one message per slide

b. Use boxes to organise and separate content

c. Implement the gradients and shapes in new ways to tell a story

d. Create sleek diagrams and flowcharts, organise content with boxes and enhance messages with icons

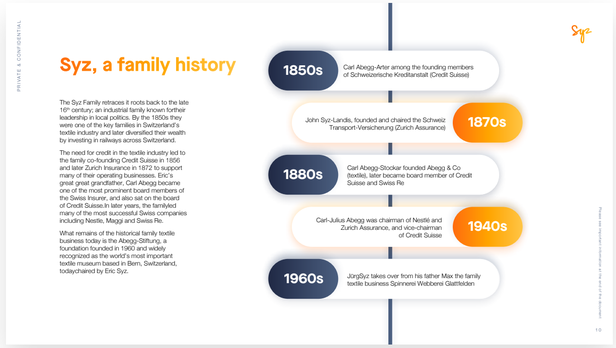

a.

b.

c.

d.

Best practice

9.2 One-pagers

When packing a tight amount of content into a small space, like a one-pager, use boxes and lines to separate sections and give breathing room to the reader.

Keep margins as wide as possible, and use strong colour boxes for call-out messages and key information.

PRIVATE BANKING

Acerca de Syz

Bank Syz es un banco privado suizo fundado en 1996, propiedad de la familia Syz y dirigido por dos de sus generaciones. La familia Syz tiene una dilatada trayectoria de emprendimiento; sus miembros han contribuido a dar forma a la economía suiza durante más de dos siglos al haber sido pioneros en la industria textil y, posteriormente, en el ámbito ferroviario en toda Suiza.

La necesidad de crédito en la industria textil llevó a la familia a cofundar Credit Suisse en 1856 y, más tarde, Zurich Insurance en 1872. En años posteriores, la familia dirigió muchas de las empresas suizas de mayor éxito, como Nestlé y Swiss Re.

La familia Syz siente verdadera pasión por la inversión y está profundamente comprometida a anteponer los intereses del cliente en calidad de Grupo totalmente independiente, sin accionistas externos. Ofrecen a los clientes la oportunidad de invertir junto a ellos, especialmente en oportunidades del mercado privado.

HISTORIA DEL GRUPO SYZ

1996 -2000	Fundación de Bank Syz en 1996 en Ginebra Los activos gestionados superan los 1000 millones de CHF Uno de los primeros bancos privados suizos en incluir fondos de inversión libre (Hedge Funds) en las carteras DPM de sus clientes en los años 90 Fundación de Oyster Funds, una marca de éxito vendida posteriormente
2005	Los activos gestionados superan los 15,000 millones de CHF
2015	Adquisición de Royal Bank of Canada (Suisse) SA
2019	La segunda generación de la familia Syz toma los mandos
2022	Apertura de oficina del Grupo Syz en Montevideo (Uruguay)
2023	Lanzamiento del primer Fondo de fondos de inversión libre centrados en criptomonedas

¿Por qué Suiza?

- Fundador del sector de la Banca Privada y líder mundial en gestión de activos transfronterizos
- Alto grado de integridad económica, moneda nacional fuerte (franco suizo), estabilidad política y social, inflación baja y estable, tasa de desempleo reducida
- Los bancos suizos están supervisados por uno de los reguladores financieros más estrictos del mundo (FINMA),que garantiza los intereses de los clientes y la salvaguarda de los activos
- Profundo compromiso con la privacidad y la confidencialidad de los clientes, ambas completamente arraigadas en la cultura suiza

¿Qué servicios vle ofrecemos?

- Experiencia individualizada de Banca Privada centrada en las interacciones humanas y las relaciones auténticas
- Servicio dedicado y personalizado con flexibilidad y agilidad
- Acceso a expertos internos (inversión, planificación patrimonial, etc.), así como a los miembros de la familia Syz
- Arquitectura verdaderamente abierta que garantiza la selección de las mejores soluciones del mercado

Datos y cifras

23.600m
Activos gestionados del Grupo (CHF)*
Entre los primeros Bancos Privados de Suiza clasificados por tamaño.

100%
Centro de custodia suizo
Activos registrados en Suiza: la custodia en EE.UU. es posible mediante asociacion.

27.7%
Ratio de solvencia del balance*
Entre las mas elevadas del sector, aproximadamente el doble de los requisitos reglamentarios mínimos

Innovación
constante para prestarle un mejor servicio
Negociación y custodia de activos digitales; fondos de inversión libre de criptomonedas; financiación de litigios; Syz como Servicio

PRIVATE BANKING

Nuestros principales servicios de Banca Privada
